Other requirements:

- **The learning outcomes** (also referred to as "LO") and the related criteria and rules for their assessment are listed in the individual course information sheets in the "Education outcomes" section and in the "Course completion conditions" section.
- **Pre-requisites** and co- **requisites** are listed in the subject information sheets,
- **The educational activities used**, suitable for achieving the educational outcomes, are listed in the subject information sheets in the section "Conditions for passing the subject" for each educational outcome separately,
- **The method of education** is:
 - o attendance,
 - o distance,

- combined,
- Technical means for online teaching (MS Teams and Moodle) are also used for individual education methods.
- **Course syllabi** are available in the Moodle system (<https://moodle.vsbm.sk>),
- **the student's workload** is defined in the so-called Subject plans for individual subjects separately. The workload depends on the number of credits and is budgeted for lectures, seminars, projects, and independent study in order to fulfill ECTS rules (EHEA).
- **Credits** are assigned to each subject separately. Credits are allocated in subjects as follows:

The core of the field of study	Covered with objects	Subject type	Credits
Methodology of management activities of organizations for the protection of persons and property	Security management systems	C	7
	Research methodology	C	6
Mathematics, system and operational analysis	Application of methods of system and operational analysis	C	7
Theory of risks and crises	Risk management	CO	5
Theory of probability and statistics	Systems theory	CO	5
Information security	Security of information systems	CO	5
Selected topics of legal disciplines	Law in security management	CO	5
Modeling, simulation and design of security systems	Modeling and simulation in the design of safety systems	C	6
Technologies of security activities	Technique and technology of object protection	CO	5
Economics of security services	Economy security services	CO	5
Analytical and conceptual activity, empirical, experimental and other methods of research work	Objectives and methodology of DzT project solution	C	6
	Project of composition and disposition of DzT	C	10
	DzT implementation and benefits project	C	10
	Dissertation exam	C	10
	Processing and defense of the dissertation	C	30
	Creative activity of a doctoral student	CO	65
Together			187

C - compulsory, CO - compulsory optional subject
